INTERNAL QUALITY ASSURANCE CELL

Queen Mary's College (Autonomous)
MYLAPORE CHENNAI 600004

Greetings from IQAC, Queen Mary's College
(Autonomous), Chennai, Tamilnadu !

We are happy to invite you to a NAAC sponsored National Workshop on Curriculum Design and Development for Quality in Higher Education on the 5th and 6th January 2018, at Queen Mary's College (Autonomous), Chennai 600 004

QUEEN MARY'S COLLEGE

Queen Mary's College is an innovation with over 100 years of experience in empowering women, exploring knowledge and rendering expertise in various disciplines. The college began functioning in 1914 as Madras College for Women with 33 women students, renamed as Queen Mary's College in 1917 and has now enrolled over 4000 women students, with due recognition as a premier Government Institution within the State of Tamil Nadu. As a lead institution with the motto of 'Commonsense and Consideration', the college primarily serves to cater to students from economically and socially marginalized sections. The college has been re-accredited with the grade "A" by NAAC in 2015, and currently has 24 departments, which offers 23 undergraduate (Tamil medium in few disciplines), 18 Postgraduate, 13 M.Phil., and 10 Ph.D. programs.

ABOUT IQAC

The IQAC of Queen Mary's College is the quality guardian that strives to maintain standards in every aspect of academics and administration. It constantly works towards the realization of quality enhancement in teaching, learning, research and extension. Quality checks through periodic academic audits, preparation and submission of the Annual Quality Assurance Report, collection and analysis of student's feedback forms are the routine tasks undertaken by the IQAC. In addition special programmes to reach out to specific segments of the college such as orientation for freshers, stress management for administrative staff and study skills and motivation for underachievers are among the many activities undertaken by the IQAC. Thus the IQAC plays an important role in stimulating every individual in the institution to work effectively in the pursuit of excellence in both academic and administrative endeavors.

ABOUT NAAC

The National Assessment and Accreditation Council (NAAC) is an autonomous body that functions from Bangalore and is funded by University Grants Commission, Government of India. NAAC functions through its General Council and Executive Committee where educational administrators, policy makers and senior academicians from a cross-section of system of higher education are represented. NAAC assesses and accredits higher education institutions for the cause of institutions to acquire the 'Institutional Eligibility for Quality Assessment' (IEQA) and for accredited Graduation as 'A', 'B', 'C' and 'D'. To improve the quality issues in higher education NAAC provides financial assistance to academic institutions on priority areas of quality sustenance and quality enhancement measures. In this regard, NAAC has approved and sponsored the current workshop. The benevolence of NAAC in this endeavor of quality improvement is duly acknowledged and appreciated by the institution.

OBJECTIVES OF THE WORKSHOP

It is a paradox that education makes us realize the need to bring in changes in the system of education itself. With the advent of Globalization, liberalization and commodity culture, emergence of certain sciences and decay of certain other disciplines in the relevance of job market has become a certainty. The social system today is largely vulnerable to the impact of new technological innovations such that children and youngsters look to the social media for role models as media today is understandably their fulcrum of reference. Development of e-portals and content writing and posting it as knowledge by every individual makes it necessary to educate information gatherers to verify the authenticity of the information provided. The social responsibility of teachers is mounting as there is demand for credible methods in identifying real facts and eliminating the storage of irrelevant ones. Hence this is the crucial time for us to revamp, think, discuss and make relevant changes either in the curriculum or imparting module with existential relevance.

THE FOLLOWING OBJECTIVES OF THE WORKSHOP ARE CONSIDERED RELEVANT FOR FURTHER DELIBERATIONS

The responsibility of the teaching organization lies in enriching the learning experience through the use of appropriate tools, methods and resources of teaching and ultimately orienting the student into research. With these objectives in view, we could design a curriculum with guaranteed evaluation techniques, impetus towards research and due focus on student competency and employability. This workshop may provide a platform for us to develop a curriculum with better teaching modules which can convert a student into a better motivated individual who can take every opportunity and convert it into efficiency. As teachers it is our responsibility to remain a bridge between the education system and its stakeholder 'the student'.
