Aim of the Research club

To provide a platform for students to share knowledge and develop their academic skills, and research aptitude.

Research club activities - expert lectures, workshops, debates, exhibitions, group discussions, wall magazine, symposium, seminars.

The club was initiated on 20.11.2021, and till date 14 invited lectures, 1 group discussion was conducted. The club meeting conducted every Saturday 11 am to 12.30 pm in online mode (Google Meet). WhatsApp group in the name of QMC Research club is functioning. Everyday a question is asked in the group by the Organiser Dr. S.Karpagam. The students actively participate and answer the questions. The questions vary from science, arts, culture and current affairs.
