

Department of Commerce

ED cell – Work shop for 10 days Date :11/03/2024 to 22/03/2024

The workshop was conducted by **FEVICEYL** at free of cost for the students . The materials for learning alone was brought by the students. *Certificate was issued by the organisation* for the students who completed the course successful. Nearly **30 students took part** in the workshop and learnt the art work .

**FASHION**

Specifically made for fashion designers to learn different art techniques to use in their creations, be it garments or accessories, from Indian art forms like Pattachitra, Gond art, Madhubani and more, to international ones like Shibori and Suzani. They will be able to use Fevicryl products in myriad ways using their creativity and add value to your course.

**INTERIOR DESIGN**

Students will learn the art of enhancing mundane walls, through innovative creations, inspired by principles of design and current trends. This will in turn assist them in designing homes in a better manner, from the smallest of table add-ons (runners, coasters) to throws, wall paintings, that give the interiors and your designs a unique touch.

**HOME SCIENCE**

Home Science is the application of many sciences and art forms towards achieving better, happier and healthier homes. In the workshops we will touch upon the aspects of interior designing, garment designing and best out of waste.

**CERTIFICATE HAS BEEN DISTRIBUTED TO THE STUDENTS AFTER COMPLETING THE WORKSHOP**
