

I Computer Science 24- 25 Batch

Subject : General English

Faculty : Dr. P. Vinitha Francis

Associate Professor of English

Date: 09.01.2025

No. of Participants: 6

Objective:

To enhance poetic comprehension, expressive delivery and interpretation skills through performance-based recitation.

Methodology:

Students of I B.Sc. Computer Science—M. Mahalakshmi, R. Deepika, Sivani K, Shafrin B, Buvaneshwari, and Senthamilarasi—recited the classic poem “The Road Not Taken” by Robert Frost. With expressive gestures and coordinated actions, they brought the poem’s metaphorical journey to life. Their creative interpretation gave depth to the poem’s themes of choice and individuality.

Learning Outcomes:

This activity enriched students’ vocabulary, articulation, and expressive reading. It encouraged critical thinking by prompting them to interpret symbolic meanings. The use of action enhanced memory retention, fluency and confidence in public speaking, making literature both meaningful and memorable.
