Department of Sociology
Extension Activity – School Awareness Programme

Date: 13 February 2026

As part of its extension activities, the Department of Sociology organized a School Awareness Programme for the students of Social Service League School on 13 February 2026. The programme was conducted with the objective of creating awareness among school students and strengthening the connection between the college and the local community.

During the programme, Sociology students actively engaged with the school children by conducting awareness sessions on important social topics. The sessions included interactive discussions, informative presentations, and engaging activities that encouraged students to think critically and participate confidently. The college students also organized fun games and group activities to make the learning process more enjoyable and interactive for the children.

The programme created a lively and friendly learning atmosphere where school students were able to express their ideas, ask questions, and learn new concepts in an interesting way. The activities helped in building awareness, promoting positive values, and encouraging teamwork among the participants.

At the end of the programme, prizes were distributed to the winners of the games and activities as a token of encouragement. The event was both educational and enjoyable for the school students and provided college students with valuable experience in community engagement. This initiative reflected the Department of Sociology's commitment to social responsibility, community outreach, and the holistic development of students.
