

DEPARTMENT OF CHEMISTRY
EXTENTION ACTIVITY AT
SOCIAL SEVA LEAGUE (SSL) ACTIVITY- 17.06.2026

On 17 February 2026, the Department of Chemistry, Queen Mary's College (A), Chennai, conducted a Science Awareness Programme and exploring science through innovation at the Social Seva League (SSL) School for students of Classes I to V. The students of I Year B.Sc. Chemistry, M. Mahalakshmi and K. Indhumathi, demonstrated simple science experiments, including Water Density, Lava Lamp, Air Pressure along with interactive science games such as puzzle solving and lifting a lemon from a beaker without spilling water. Three students of II Year B.Sc. Chemistry demonstrated Acid–Base and Fake Blood experiments. 7 student volunteers from Department of Chemistry helped actively and conducted the program. The program successfully enhanced scientific curiosity, active participation, and experiential learning among the school students while promoting community engagement. At the end all the kids were given opportunity to indulge in the fun activities of puzzle games on chemistry.
